

Primary Reading: Phonics: Consonants

Consonants

Students

Learning Continuum Statements:

Students:

RIT 111-120:

- Matches the letter f to the initial sound in spoken words
- Matches the letter h to the initial sound in spoken words
- Matches the letter m to the initial sound in spoken words
- Matches the letter z to the initial sound in spoken words
- Recognizes the letter k makes the /k/ sound
- Recognizes the letter z makes the /z/ sound

Students:

RIT 121-130:

- Distinguishes the initial sounds of multiple spoken words
- Matches the letter b to the initial sound in spoken words
- Matches the letter d to the initial sound in spoken words
- Matches the letter f to the initial sound in spoken words
- Matches the letter g to the initial sound in spoken words
- Matches the letter h to the initial sound in spoken words
- Matches the letter j to the initial sound in spoken words
- Matches the letter k to the initial sound in spoken words
- Matches the letter l to the initial sound in spoken words
- Matches the letter m to the initial sound in spoken words
- Matches the letter n to the initial sound in spoken words
- Matches the letter p to the initial sound in spoken words
- Matches the letter r to the initial sound in spoken words
- Matches the letter s to the initial sound in spoken words
- Matches the letter t to the initial sound in spoken words
- Matches the letter v to the initial sound in spoken words
- Matches the letter w to the initial sound in spoken words
- Matches the letter y to the initial sound in spoken words
- Matches the letter z to the initial sound in spoken words
- Recognizes the letter b makes the /b/ sound
- Recognizes the letter g makes the /g/ sound
- Recognizes the letter j makes the /j/ sound
- Recognizes the letter k makes the /k/ sound
- Recognizes the letter l makes the /l/ sound
- Recognizes the letter m makes the /m/ sound
- Recognizes the letter n makes the /n/ sound
- Recognizes the letter r makes the /r/ sound
- Recognizes the letter s makes the /s/ sound
- Recognizes the letter t makes the /t/ sound
- Recognizes the letter v makes the /v/ sound
- Recognizes the letter w makes the /w/ sound
- Recognizes the letter x makes the /ks/ sound
- Recognizes the letter z makes the /z/ sound

Students:

RIT 131-140:

- Distinguishes letter sounds within consonant blends
- Distinguishes the initial sounds of multiple spoken words
- Identifies the initial digraphs of spoken words
- Identifies the word with a given initial consonant sound
- Matches the letter b to the initial sound in spoken words

- Matches the letter c to the initial sound in spoken words
- Matches the letter d to the initial sound in spoken words
- Matches the letter f to the initial sound in spoken words
- Matches the letter g to the initial sound in spoken words
- Matches the letter h to the initial sound in spoken words
- Matches the letter j to the initial sound in spoken words
- Matches the letter k to the initial sound in spoken words
- Matches the letter l to the initial sound in spoken words
- Matches the letter m to the initial sound in spoken words
- Matches the letter n to the initial sound in spoken words
- Matches the letter p to the initial sound in spoken words
- Matches the letter r to the initial sound in spoken words
- Matches the letter s to the initial sound in spoken words
- Matches the letter t to the initial sound in spoken words
- Matches the letter v to the initial sound in spoken words
- Matches the letter w to the initial sound in spoken words
- Matches the letter y to the initial sound in spoken words
- Matches the letter z to the initial sound in spoken words
- Matches the letters qu to the initial sounds in a spoken word
- Recognizes the letter b makes the /b/ sound
- Recognizes the letter d makes the /d/ sound
- Recognizes the letter f makes the /f/ sound
- Recognizes the letter g makes the /g/ sound
- Recognizes the letter h makes the /h/ sound
- Recognizes the letter j makes the /j/ sound
- Recognizes the letter k makes the /k/ sound
- Recognizes the letter l makes the /l/ sound
- Recognizes the letter n makes the /n/ sound
- Recognizes the letter p makes the /p/ sound
- Recognizes the letter r makes the /r/ sound
- Recognizes the letter t makes the /t/ sound
- Recognizes the letter v makes the /v/ sound
- Recognizes the letter w makes the /w/ sound
- Recognizes the letter x makes the /ks/ sound
- Recognizes the letter y makes the /y/ sound
- Understands the sound of the initial cl- blend

Students:

RIT 141-150:

- Distinguishes the initial sounds of multiple spoken words
- Matches the letter b to the initial sound in spoken words
- Matches the letter c to the initial sound in spoken words
- Matches the letter d to the initial sound in spoken words
- Matches the letter f to the initial sound in spoken words
- Matches the letter g to the initial sound in spoken words
- Matches the letter h to the initial sound in spoken words
- Matches the letter j to the initial sound in spoken words
- Matches the letter k to the initial sound in spoken words
- Matches the letter l to the initial sound in spoken words
- Matches the letter m to the final sound in spoken words
- Matches the letter n to the initial sound in spoken words
- Matches the letter p to the initial sound in spoken words
- Matches the letter r to the initial sound in spoken words
- Matches the letter s to the final sound in spoken words

- Matches the letter s to the initial sound in spoken words
- Matches the letter t to the initial sound in spoken words
- Matches the letter v to the initial sound in spoken words
- Matches the letter w to the initial sound in spoken words
- Matches the letter y to the initial sound in spoken words
- Matches the letter z to the final sound in spoken words
- Matches the letter z to the initial sound in spoken words
- Matches the letters qu to the initial sounds in a spoken word
- Recognizes the letter b makes the /b/ sound
- Recognizes the letter l makes the /l/ sound
- Recognizes the letter v makes the /v/ sound
- Substitutes the initial consonant in similarly spelled words
- Understands the sound of the digraph /ch/
- Understands the sound of the digraph /ck/
- Understands the sound of the digraph /sh/
- Understands the sound of the digraph /th/
- Understands the sound of the digraph /wh/
- Understands the sound of the initial sc- blend
- Understands the sound of the initial sk- blend
- Understands the sound of the initial sm- blend
- Understands the sound of the initial sn- blend
- Understands the sound of the initial sw- blend
- Understands the sound of the initial tw- blend
- Understands the sounds of initial consonant + l blends
- Understands the sounds of initial consonant + r blends
- Understands the sounds of three letter initial blends

Students:

RIT 151-160:

- Distinguishes the final sounds of multiple spoken words
- Identifies consonants that differ in similarly spelled words
- Matches the letter c to the initial sound in spoken words
- Matches the letter d to the final sound in spoken words
- Matches the letter d to the initial sound in spoken words
- Matches the letter f to the initial sound in spoken words
- Matches the letter g to the initial sound in spoken words
- Matches the letter h to the initial sound in spoken words
- Matches the letter j to the initial sound in spoken words
- Matches the letter k to the final sound in spoken words
- Matches the letter k to the initial sound in spoken words
- Matches the letter l to the final sound in spoken words
- Matches the letter l to the initial sound in spoken words
- Matches the letter m to the final sound in spoken words
- Matches the letter n to the final sound in spoken words
- Matches the letter p to the initial sound in spoken words
- Matches the letter r to the initial sound in spoken words
- Matches the letter s to the initial sound in spoken words
- Matches the letter t to the initial sound in spoken words
- Matches the letter v to the initial sound in spoken words
- Matches the letter w to the initial sound in spoken words
- Matches the letter y to the initial sound in spoken words
- Matches the letter z to the initial sound in spoken words
- Understands the sound of the digraph /ch/
- Understands the sound of the digraph /th/

- Understands the sound of the final -ft blend
- Understands the sound of the final -st blend
- Understands the sound of the initial sk- blend
- Understands the sound of the initial sp- blend
- Understands the sound of the initial st- blend
- Understands the sound of the initial sw- blend
- Understands the sound of the initial tw- blend
- Understands the sounds of initial consonant + l blends
- Understands the sounds of initial consonant + r blends
- Understands the sounds of three letter initial blends

Students:

RIT 161-170:

- Matches the letter c to the initial sound in spoken words
- Matches the letter f to the initial sound in spoken words
- Matches the letter t to the initial sound in spoken words
- Understands the sound of the digraph /ph/
- Understands the sound of the final -mp blend
- Understands the sounds of initial consonant + r blends
