

## Sentence Completeness

**Students**                      **Learning Continuum Statements:**

**Students:**

**RIT 151-160:**

- Forms a complete simple sentence
- Recognizes when a simple sentence is complete

**Students:**

**RIT 161-170:**

- Combines subjects and predicates into complete sentences
- Forms a complete simple sentence
- Recognizes when a simple sentence is complete

**Students:**

**RIT 171-180:**

- Combines subjects and predicates into complete sentences
- Forms a complete complex sentence
- Forms a complete sentence by adding an independent clause to a phrase
- Forms a complete simple sentence
- Recognizes that a subject is not a complete sentence
- Recognizes when a simple sentence is complete
- Recognizes when an interrogative sentence is complete

**Students:**

**RIT 181-190:**

- Combines subjects and predicates into complete sentences
- Forms a complete complex sentence
- Forms a complete compound sentence
- Forms a complete sentence by adding an independent clause to a phrase
- Forms a complete simple sentence
- Recognizes that a subject is not a complete sentence
- Recognizes when a complex sentence is complete
- Recognizes when a simple sentence is complete
- Recognizes when an interrogative sentence is complete

**Students:**

**RIT 191-200:**

- Classifies a sentence as incomplete
- Combines subjects and predicates into complete sentences
- Edits to correct incomplete sentences
- Forms a complete complex sentence
- Forms a complete compound sentence
- Forms a complete sentence by adding an independent clause to a phrase
- Forms a complete simple sentence

- Recognizes that a predicate is not a complete sentence
- Recognizes that a subject is not a complete sentence
- Recognizes when a complex sentence is complete
- Recognizes when a sentence with a gerund as the subject is complete
- Recognizes when a simple sentence is complete
- Recognizes when an imperative sentence is complete
- Recognizes when an interrogative sentence is complete

**Students:**

**RIT 201-210:**

- Classifies a sentence as incomplete
- Classifies an incomplete sentence as a fragment
- Combines subjects and predicates into complete sentences
- Edits to correct incomplete sentences
- Forms a complete compound sentence
- Forms a complete sentence by adding an independent clause to a phrase
- Recognizes that a predicate is not a complete sentence
- Recognizes that a subject is not a complete sentence
- Recognizes when a complex sentence is complete
- Recognizes when a sentence needs a subject to be complete
- Recognizes when a sentence with a gerund as the subject is complete
- Recognizes when a simple sentence is complete
- Recognizes when an imperative sentence is complete
- Recognizes when an interrogative sentence is complete

**Students:**

**RIT 211-220:**

- Classifies an incomplete sentence as a fragment
- Combines subjects and predicates into complete sentences
- Forms a complete compound sentence
- Identifies subject and predicate as the two main parts of a sentence
- Recognizes when a compound sentence is complete
- Recognizes when a sentence needs a subject to be complete
- Recognizes when a sentence with a gerund as the subject is complete
- Recognizes when a simple sentence is complete
- Recognizes when an imperative sentence is complete

**Students:**

**RIT 221-230:**

- Classifies an incomplete sentence as a fragment
- Recognizes when a sentence with a gerund as the subject is complete

**Students:**

**RIT 231-240:**

- Classifies an incomplete sentence as a fragment

**Students:**

**RIT 241-250:**

- Classifies an incomplete sentence as a fragment
