

Math 6+: Algebraic Concepts Systems of Equations and Inequalities

System of Equations and Inequalities

| Students | Learning Continuum Statements: |
|----------|--------------------------------|
|----------|--------------------------------|

| | |
|------------------|--|
| Students: | |
|------------------|--|

| | |
|--|---------------------|
| | RIT 191-200: |
|--|---------------------|

- Solves a system of linear equations involving a real-world context, given a table

| | |
|------------------|--|
| Students: | |
|------------------|--|

| | |
|--|---------------------|
| | RIT 201-210: |
|--|---------------------|

- Solves a system of linear equations involving a real-world context, given a table

| | |
|------------------|--|
| Students: | |
|------------------|--|

| | |
|--|---------------------|
| | RIT 211-220: |
|--|---------------------|

- Solves a system of linear equations graphically
- Writes and solves a system of linear equations involving a real-world or mathematical context

| | |
|------------------|--|
| Students: | |
|------------------|--|

| | |
|--|---------------------|
| | RIT 221-230: |
|--|---------------------|

- Solves a system of linear equations graphically
- Writes a system of linear equations to represent a real-world or mathematical context
- Writes and solves a system of linear equations involving a real-world or mathematical context
