

Math 6+: Computation and Problem Solving Integer, Rational, Real, and Complex Numbers

Real and Complex Numbers: Computation

Students

Learning Continuum Statements:

Students:

RIT 231-240:

- Adds and subtracts complex numbers

Students:

RIT 241-250:

- Adds and subtracts complex numbers

Students:

RIT 251-260:

- Adds and subtracts complex numbers
- Simplifies expressions involving the relation $i^2 = -1$

Students:

RIT 261-270:

- Multiplies complex numbers
- Simplifies expressions involving the relation $i^2 = -1$

Students:

RIT 271-280:

- Determines the conjugate of a complex number
- Multiplies complex numbers
- Simplifies expressions involving the relation $i^2 = -1$

Students:

RIT 281-290:

- Multiplies complex numbers
