

Math 6+: Computation and Problem Solving Whole Number Operations

Number Sentences, Equations, and Equivalence

Students	Learning Continuum Statements:
----------	--------------------------------

Students:	RIT 161-170: <ul style="list-style-type: none">• Decomposes whole numbers within 10 in more than one way, using expressions• Decomposes whole numbers within 10 in more than one way, using models
------------------	--

Students:	RIT 171-180: <ul style="list-style-type: none">• Applies knowledge of place value or number sense to compose or decompose whole numbers greater than 10 to create equivalent expressions• Decomposes whole numbers within 10 in more than one way, using models
------------------	---

Students:	RIT 181-190: <ul style="list-style-type: none">• Applies knowledge of place value or number sense to compose or decompose whole numbers greater than 10 to create equivalent expressions• Decomposes whole numbers within 10 in more than one way, using models• Names a number multiple ways as expressions involving the four operations
------------------	---

Students:	RIT 191-200: <ul style="list-style-type: none">• Applies knowledge of place value or number sense to compose or decompose whole numbers greater than 10 to create equivalent expressions• Names a number multiple ways as expressions involving the four operations
------------------	---

Students:	RIT 201-210: <ul style="list-style-type: none">• Applies knowledge of place value or number sense to compose or decompose whole numbers greater than 10 to create equivalent expressions
------------------	---
