

## Math 6+: Computation and Problem Solving Whole Number Operations

### Whole Numbers and Decimals: Rounding and Estimation

Students	Learning Continuum Statements:
----------	--------------------------------

<b>Students:</b>	
------------------	--

**RIT 171-180:**

- Estimates whole-number sums within 100

<b>Students:</b>	
------------------	--

**RIT 181-190:**

- Estimates whole-number sums within 100

<b>Students:</b>	
------------------	--

**RIT 191-200:**

- Estimates whole-number sums greater than 100
- Estimates whole-number sums within 100

<b>Students:</b>	
------------------	--

**RIT 201-210:**

- Determines compatible numbers to estimate with whole numbers
- Estimates differences involving whole numbers greater than 100
- Estimates quotients involving multi-digit whole numbers
- Estimates the range of the quotient when dividing multi-digit whole numbers
- Estimates whole-number sums greater than 100
- Estimates whole-number sums within 100

<b>Students:</b>	
------------------	--

**RIT 211-220:**

- Estimates products involving multi-digit whole numbers
- Estimates quotients involving multi-digit whole numbers
- Estimates the range of the quotient when dividing multi-digit whole numbers

<b>Students:</b>	
------------------	--

**RIT 221-230:**

- Estimates quotients involving multi-digit whole numbers
- Estimates the range of the quotient when dividing multi-digit whole numbers
