

Math 6+: Measurement

Length, Weight, Mass, Capacity, and Angles

Angle Measurement

Students **Learning Continuum Statements:**

Students:

RIT 161-170:

- Measures right angles using a protractor

Students:

RIT 171-180:

- *No Skills Listed*

Students:

RIT 181-190:

- Calculates unknown angle measures using the additive property of angles
- Compares angle measures to benchmark angles

Students:

RIT 191-200:

- Calculates unknown angle measures using the additive property of angles
- Compares angle measures to benchmark angles
- Identifies/estimates angle measures

Students:

RIT 201-210:

- Calculates unknown angle measures using the additive property of angles
- Compares angle measures to benchmark angles
- Identifies/estimates angle measures

Students:

RIT 211-220:

- Calculates unknown angle measures using the additive property of angles
- Compares angle measures to benchmark angles
- Identifies/estimates angle measures
- Measures non-right angles using a protractor

Students:

RIT 221-230:

- Calculates unknown angle measures using the additive property of angles
 - Identifies/estimates angle measures
 - Measures non-right angles using a protractor
-

Students:

RIT 231-240:

- Calculates unknown angle measures using the additive property of angles
-
