

Math 6+: Measurement Time, Temperature, and Money

Money

Students Learning Continuum Statements:

Students:

RIT 161-170:

- Determines the whole number value of a collection of coins given as pictures
- Represents a given amount of money using dollar notation

Students:

RIT 171-180:

- Counts on to determine the decimal value of a collection of coins and/or bills given as names
- Determines the decimal value of a collection of coins and/or bills given as pictures
- Determines the whole number value of a collection of coins given as pictures
- Identifies equivalent sets of coins
- Identifies the value of a single coin given as a picture, using dollar notation
- Represents a given amount of money using dollar notation

Students:

RIT 181-190:

- Counts on to determine the decimal value of a collection of coins and/or bills given as names
- Determines the decimal value of a collection of coins and/or bills given as pictures
- Determines the whole number value of a collection of coins given as coin names
- Determines the whole number value of a collection of coins given as pictures
- Identifies equivalent sets of coins
- Identifies the value of a single coin given as a picture, using dollar notation
- Represents a given amount of money using dollar notation
- Solves word problems involving amount spent or change received, whole numbers, and coin names or pictures

Students:

RIT 191-200:

- Counts on to determine the decimal value of a collection of coins and/or bills given as names
- Determines possible coin combinations equivalent to a specific amount, given either coin names or a specified number of coins
- Determines the decimal value of a collection of coins and/or bills given as pictures
- Determines the whole number value of a collection of coins given as coin names
- Represents a given amount of money using dollar notation
- Solves money word problems involving decimals and coins and/or bills given as names
- Solves money word problems involving whole numbers and coins and/or bills given as names
- Solves word problems involving amount spent or change received, whole numbers, and coin names or pictures

Students:**RIT 201-210:**

- Determines possible coin combinations equivalent to a specific amount, given either coin names or a specified number of coins
- Solves money word problems involving decimals and coins and/or bills given as names
- Solves word problems involving amount spent or change received, whole numbers, and coin names or pictures

Students:**RIT 211-220:**

- Determines possible coin combinations equivalent to a specific amount, given either coin names or a specified number of coins
- Solves money word problems involving decimals and coins and/or bills given as names

Students:**RIT 221-230:**

- Determines possible coin combinations equivalent to a specific amount, given either coin names or a specified number of coins
- Solves money word problems involving decimals and coins and/or bills given as names
