

Math 6+: Number Sense
Fractions, Decimals, and Percents: Concepts

Decimals: Compare and Order

Students	Learning Continuum Statements:
Students:	RIT 161-170: <ul style="list-style-type: none">Compares decimals to the hundredths, with the same number of digits after the decimal point, using terms
Students:	RIT 171-180: <ul style="list-style-type: none">Compares decimals to the hundredths using symbols, given modelsOrders decimals to the hundredths, with the same number of digits after the decimal point
Students:	RIT 181-190: <ul style="list-style-type: none">Orders decimals to the hundredths, with the same number of digits after the decimal point
Students:	RIT 191-200: <ul style="list-style-type: none">Compares decimals to the hundredths, with the same number of digits after the decimal point, using symbolsCompares decimals to the thousandths, with the same number of digits after the decimal point, using symbols
Students:	RIT 201-210: <ul style="list-style-type: none">Compares decimals to the hundredths, with a different number of digits after the decimal point, using terms
Students:	RIT 211-220: <ul style="list-style-type: none">Compares decimals beyond the thousandths, with a different number of digits after the decimal point, using symbolsCompares decimals to the hundredths, with a different number of digits after the decimal point, using symbolsCompares decimals to the hundredths, with a different number of digits after the decimal point, using termsCompares decimals to the thousandths, with a different number of digits after the decimal point, using symbols

Students:**RIT 221-230:**

- Compares decimals beyond the thousandths, with a different number of digits after the decimal point, using terms
- Compares decimals to the hundredths, with a different number of digits after the decimal point, using symbols
- Compares decimals to the hundredths, with a different number of digits after the decimal point, using terms
- Compares decimals to the thousandths, with a different number of digits after the decimal point, using symbols
- Compares decimals to the thousandths, with a different number of digits after the decimal point, using terms
- Orders decimals to the hundredths, with a different number of digits after the decimal point
- Orders decimals to the thousandths, with a different number of digits after the decimal point
- Orders decimals to the thousandths, with the same number of digits after the decimal point

Students:**RIT 231-240:**

- Compares decimals to the thousandths, with a different number of digits after the decimal point, using symbols
- Orders decimals to the thousandths, with a different number of digits after the decimal point
