

# Primary Math: Measurement and Geometry

## Measurement, Money, and Problem Solving with Units

### Perimeter and Circumference

Students	Learning Continuum Statements:
----------	--------------------------------

---

Students:

**RIT 171-180:**

- Determines side lengths given the perimeter and some side lengths of rectangles
- Determines the perimeter of a quadrilateral in nonstandard units

Students:

**RIT 181-190:**

- Determines the perimeter of basic polygons with all sides labeled

Students:

**RIT 191-200:**

- Determines the perimeter of basic polygons with all sides labeled

Students:

**RIT 201-210:**

- *No Skills Listed*

Students:

**RIT 211-220:**

- Solves problems involving perimeters of rectangles within a real-world or mathematical context
-
