

Primary Math: Measurement and Geometry

Shapes, Attributes, and Spatial Reasoning

Time

Students	Learning Continuum Statements:
----------	--------------------------------

Students:	RIT 121-130:
------------------	---------------------

- Identifies a clock
- Identifies the appropriate measurement tool for time

Students:	RIT 131-140:
------------------	---------------------

- Identifies the appropriate measurement tool for time
- Identifies the minute hand on an analog clock

Students:	RIT 141-150:
------------------	---------------------

- Identifies events that occur in the morning
- Reads a calendar
- Reads time in hours and half hours on a digital clock

Students:	RIT 151-160:
------------------	---------------------

- Reads a calendar
- Reads time in five minute increments on a digital clock
- Reads time in hours and half hours on a digital clock
- Represents a given time on a digital clock
- Understands the sequence of the days of the week
- Understands the sequence of the months of the year

Students:	RIT 161-170:
------------------	---------------------

- Estimates the duration of an event
- Interprets information on a calendar
- Reads a calendar
- Reads analog clocks to the nearest hour
- Reads time in hours and half hours on a digital clock
- Represents a given time on a digital clock
- Understands the concepts of yesterday, today, and tomorrow
- Understands the sequence of the days of the week
- Understands the sequence of the months of the year

Students:**RIT 171-180:**

- Completes conversions of units of time
- Estimates the duration of an event
- Interprets information on a calendar
- Reads analog clocks to the nearest half hour
- Reads analog clocks to the nearest hour
- Represents a given time on a digital clock
- Represents time given an analog clock
- Understands the concepts of yesterday, today, and tomorrow

Students:**RIT 181-190:**

- Compares lengths of time
- Completes conversions of units of time
- Determines elapsed time within an hour
- Interprets information on a calendar
- Orders lengths of time
- Reads analog clocks to the nearest five minutes
- Reads analog clocks to the nearest half hour
- Represents a date in numeric form
- Solves one-step word problems involving elapsed time to the hour

Students:**RIT 191-200:**

- Completes conversions of units of time
- Determines elapsed time within an hour
- Reads analog clocks to the nearest five minutes
- Reads analog clocks to the nearest minute
- Represents a date in numeric form
- Solves one-step word problems involving elapsed time to the minute
- Understands A.M. and P.M.

Students:**RIT 201-210:**

- Determines elapsed time within an hour
- Reads analog clocks to the nearest minute
- Solves one-step word problems involving elapsed time to the minute
