

Primary Math: Number Sense
Whole Numbers and Fractions: Place Value Concepts and Comparisons

Fractions: Represent and Model

Students **Learning Continuum Statements:**

Students:

RIT 151-160:

- Identifies shapes that are divided into fourths

Students:

RIT 161-170:

- Describes shapes as one-half shaded
- Identifies fractional shaded parts that show one whole
- Identifies shapes that are divided into equal parts
- Identifies shapes that are divided into fourths
- Identifies shapes that are divided into halves
-

Students:

RIT 171-180:

- Describes shapes as one-half shaded
- Identifies fractional shaded parts that show one whole
- Identifies shapes that are divided into equal parts
- Identifies shapes that are divided into four fourths
- Identifies shapes that are divided into halves
- Identifies shapes that are divided into one-half
- Partitions a rectangle into three-thirds
-

Students:

RIT 181-190:

- Describes shapes as one-fourth shaded
- Describes shapes as one-half shaded
- Identifies a partitioned shape that represents a unit fraction
- Identifies shapes that are divided into equal parts
- Identifies shapes that are divided into halves
- Identifies shapes that are divided into one-fourth
- Identifies shapes that are divided into thirds
- Matches unit fractions to partitioned shapes
- Partitions a rectangle into three-thirds
- Represents one-half as part of a set
-

Students:

RIT 191-200:

- Describes shapes as one-fourth shaded
- Identifies a partitioned shape that represents a unit fraction
- Identifies shapes that are divided into one-fourth
- Identifies shapes that are divided into one-third
- Identifies shapes that are divided into quarters

- Identifies shapes that are divided into thirds
- Matches unit fractions to partitioned shapes
- Represents one-third as part of a set
- Represents the shaded portion of a shape as a unit fraction
-

Students:

RIT 201-210:

- Identifies a partitioned shape that represents a unit fraction
- Identifies shapes that are divided into one-quarter
- Identifies shapes that are divided into thirds
- Matches unit fractions to partitioned shapes
- Represents part of a whole using numbers in a unit fraction
-
