

Science 3 – 5 for use with NGSS 2013:

Earth and Space Science: Earth and Human Activity

Effects of Humans on Land, Water, and Air

| Students | Learning Continuum Statements: |
|----------|--------------------------------|
|----------|--------------------------------|

Students:

RIT 181-190:

- Recognizes that polluted water is unsafe to drink

Students:

RIT 191-200:

-

Students:

RIT 201-210:

-

Students:

RIT 211-220:

- Applies scientific ideas to explain how communities use gardens to protect the environment
- Analyzes and interprets data to predict how the frequency of problems related to pollution will change over time
