

Science 3 – 5 for use with NGSS 2013:

Earth and Space Science: Earth's Systems

Engineering Design Solutions

Students

Learning Continuum Statements:

Students:

RIT 181-190:

- Evaluates solutions to problems related to the changing of land by weathering and erosion

Students:

RIT 191-200:

- Evaluates solutions to problems related to the changing of land by weathering and erosion

Students:

RIT 201-210:

- Evaluates solutions to problems related to the changing of land by weathering and erosion

Students:

RIT 211-220:

- Predicts the success of solutions to prevent erosion
- Evaluates solutions to problems related to the changing of land by weathering and erosion
