

Science 3 – 5 for use with NGSS 2013:

Earth and Space Science: Earth's Systems

Water on Earth

Students	Learning Continuum Statements:
----------	--------------------------------

Students:

RIT 161-170:

- Identifies types of land and bodies of water, using maps

Students:

RIT 171-180:

- Identifies types of land and bodies of water, using maps

Students:

RIT 181-190:

- Identifies types of land and bodies of water, using maps

Students:

RIT 191-200:

- Identifies types of land and bodies of water, using maps

Students:

RIT 201-210:

-

Students:

RIT 211-220:

- Describes the effects of glaciers on Earth's surface

Students:

RIT 221-230:

- Relates the proportions of freshwater and/or saltwater resources on Earth, using graphical displays
-
